

- Korea's First Fractional IPL
- 168 cells per irradiation area (1.4mm x 1.58mm)
- 6 different wavelengths
- 50% of light blocked in the grid area, reducing the risk of burns
- The large tip size (45mm x 18mm) allows for fast treatment
- High output of 35J and fast speed of 1Hz
- Easy way to select wavelength by turn dial rotary

Fractional IPL
